

Damage control

Rescue

Available in 150ml & 500ml

Reversal of damage can now be successfully achieved with rescue by bhavé. An in-salon therapy that boasts revolutionary keratin technology that can bind and penetrate the most severely damaged hair, rebuilding the internal structure and restoring strength, elasticity and shine previously thought to be unrecoverable. This is not a keratin smoothing process, there is absolutely no hair smoothing involved.

BENEFITS:

- Long lasting repair
- Rescues severely damaged hair
- Renews body, shine and condition
- Protects from further damage
- Less breakage
- Improvement in shine
- Boost in colour symmetry
- More natural looking colour

TECHNOLOGY:

- Raw natural functional keratin – naturally derived & extracted keratin proteins from the wool of New Zealand sheep that are able to bind to severely damaged hair, rebuilding the internal structure & restoring strength, elasticity and shine.
- Provides a 'protein shield' to protect hair from environmental damage. Respects the complexity of natural proteins and works to replicate them in form and function.

FOR:

- Severely damaged hair.
